Subject: Cross Street Campus Community Enhancement Plan West Cross Street and College Place Grant

Dear Mr. Koryzno:

Eastern Michigan University has been proud to participate in the collaborative effort associated with the preliminary design and subsequent grant submission of the Cross Street Campus Community Enhance Plan project.

While recognizing the potential benefit of this project for the entire community, the University has elected to defer from making a commitment to continue with participating in the planning of this project until such time that a comprehensive Campus Master Planning effort is completed for the University. This plan, when completed, will be used to guide the future physical development of our campus infrastructure and facilities.

Unfortunately, the completion of this University master planning effort will not coincide with the timing of this project's grant submission deadline.

Once again, the University is very appreciative of the opportunity to participate with this collaborative effort and looks forward to continuing our relationship in the future as we go forth with our Campus Master Planning efforts.

Sincerely,
